ONLINE BIDDING

Pre-sale Registration
is required PRIOR to sale day

VIDEO AUCTION

All cattle and horses will be sold by videos playing on big screens throughout the sale ring. No animals will physically come through the sale ring on sale day. Please make plans to view the bulls prior to sale time. Bulls are available for viewing now. Please call to set up a time if you want to view prior to sale day.

DELIVERY & PICK UP

All animals need to be picked up no later than May 10 Please contact Jeff or Rick to arrange to pick up animals after sale day.

GUARANTEES & LIABILITIES

All guarantees will be between the consignor of the animal and the new owner. After the sale of the animal, the new owner takes all responsibility.

SALE TERMS

Payments must be cash or check. Each animal will be sold to the highest bidder. Any disputes will be settled by the Auctioneer. Payment is expected immediately after the sale unless prior arrangements have been made.

SALE ORDER

Will be posted prior to the sale and on The Livestock Link website.

ANNOUNCEMENTS

All announcements made by owners or sale staff will take precedence over statements in this catalog. We reserve the right to remove any sale animal that will not meet our sale requirements, or guidelines.

Sleep All Night Calving Ease Bulls

Welcome...

WELCOME TO THE SLEEP ALL NIGHT BULL AND HORSE SALE

This is the place to be if you are looking for bulls that are heifer safe, problem free and have great dispositions!

This group is offered for sale by three different producers, Grass Master Cattle from Chamberlain, SD, Schmit Farms from Oakes, ND, and Triple S Cattle from Sutton, NE. These bulls represent dozens of generations of selection for traits to fight high inputs by breeding moderate framed, easy fleshing, sound structured and hard working genetics. This selection process has brought with it, females that are very productive, stay in condition easily, breed back efficiently, and can wean 50% or better of their own body weight, even in harsher environments. They produce calves that can either make great replacements or have the carcass traits to put you in the driver's seat for a high quality end product that you can produce efficiently.

Using these bulls will not only make calving more worry free, but with the genetics behind them from all of the previous selection process, they will enable you to confidently retain heifers for your own herd. This will assist you in raising a more moderate framed and highly productive cow no matter how you use them.

These bulls were brought together almost a year ago to be grown out in one well represented contemporary group. They have been pastured and then put in a lot for the winter with only a high roughage ration to be able to prove how they can grow out and you can see what you are getting.

We stand behind these bulls and look forward to serving you well into the future.

This year we are also offering a few fantastic riding horses from Caron Quarter Horses of Rapid City, South Dakota. This is a great representation of high-quality horses with fantastic pedigrees.

Please follow the Sleep All Night Bulls and the Carons Quarter Horse Facebook pages to see more pictures and information about the bulls and horses.

Thank you,

The Sleep All Night Bull Guys

FACTS TO CONSIDER

- ◆ All carcass traits are highly heritable and should be considered in genetics selection. The Tenderness trait is in the 70% range for heritability. Tenderness Scores range from 1.0 to 5.0. The lower the number the more tender
- ◆ Bovine Engineering tenderness score is a proven 80%+ accurate using the Warner-Bratzler Shear Force (WB) with ongoing comparison tests in the thousands. Our Tenderness scores will be within 10-20% or less on either side of the mark of the (WB).
- ◆ When comparing IMF, BF and REA/CWT one should realize comparisons in contemporary groups as more viable to the environmental and nutritional differences of animals outside of contemporary groups.

If there are any additional questions, please contact us and we will be more than happy to help answer your questions.

Call Rick Lloyd - 605-730-6152

Tender	2.5
Scrotal	42.5
Frame	4.5

A long bodied, easy fleshing red bull....he is deep, long strided & easy going. His calves will be growers! His dam had a good bull in the sale last year. You will want to keep replacement heifers out of this bull for easy fleshing, fertile females, with beautiful udders to put back in your cow herd.

Tender	2.4
Scrotal	41.5
Frame	3.3

Code Red is right!! This bull puts it all together in a very complete package. His 1/2 maternal brother was Lot 1 in last year's sale. His dam, a Rob Roy grand daughter is a young cow making her way to the top of our herd. Her 2022 calf, GMC Boss Hoss, is a full brother to this bull & was purchased at 4 months old and will be going out of the US to be a promising new herd sire. I am not sure which bull I like the best.

SIRE OF LOT 458

What a tank!! Has Ribeye & marbling to produce excellent end product. In the beef business? Want better beef quality? And cut out? Then take this bull home.

Triple S Cattle • Sutton, NE Home of Duff Trust Fund 1634

Duff Trust Fund is truly a rare bull. He is a 4.8 frame bull that has never sired a 70 pound calf. Calf crops are always in the 60 - 69 BW range. He is 6 ½ years old and as athletic and easy going as he has always been.

His pedigree is very strong on the maternal side with the tremendous OCC Juanada 927K cow family represented.

He sires consistent fast gaining and well-muscled offspring. We have used him on heifers and cows and never assisted a birth. His sons are in many programs throughout the Midwest and we've never received a complaint, conversations are always directed at finding more of his sons. We have two generations of his daughters in the herd now and they truly carry on the great maternal characteristics throughout his pedigree.

Tender	2.8
Scrotal	45
Frame	5.7

NOT A HEIFER BULL. This is a registerable 2-yr. old Red Angus Bull that we raised. This bull's mother was purchased for our program safe in calf. He has been a stand out from day 1, but has too high a birth weight for our goals. His ultra sound numbers are hard to find in an Angus bull of any color. He is very gentle, and will do wonders on anything but heifers.
