Photography..... LZ Photography - Riley Zoss  
Videography.....The Livestock Link - Phil Eggers

### Schedule

*Cattle available for viewing any time by appointment.*  
Sale Day - Cattle available for viewing on Friday at 10:00 a.m.  
Lunch will be served at 4:30 pm, with the Sale starting at 6:00 p.m.

### Location

**Sleepy Hollow Farm**  
28901 465th Ave, Centerville, South Dakota

*From I-29.....Fairview Exit 56, 5 mile west to stop sign, 1 mile south,  
1 mile west on 289th Street.*

*From Lennox SD.....10 miles South on SD Hwy 17/Co Rd 105, 1 mile west on  
289th Street.*

*From Jct SD Hwy 46/Co Rd 105.....8 miles North, 1 mile west on 289th Street.*

### Terms

Any announcement from the auction block takes precedent over printed material. The Auctioneer will settle any bid disputes. All persons attending the sale do so at their own risk, Sleepy Hollow Farm assumes no liability for accidents, damage, or property loss that may occur.

Settlement at conclusion of the sale. Any purchases order-bought or via online we ask to be reconciled within 10 days. **Each animal is at the buyer's risk immediately after it is sold. For a "money-back" refund, we strongly recommend purchasing insurance.**

**Selling full possession and 1/4 semen interest in all bulls.** Any semen collection ideally will be done prior to breeding season delivery or at the buyer's future convenience. EPDs current at the time of catalog printing. Updated data available sale day.

**As a service to our customers we will keep the bulls at no charge until May 1st.** Delivery will be arranged as best suits both parties in the month of May. Feed and yardage beyond the normal delivery period will be \$5/day. Free delivery to any state bordering South Dakota, shared cost beyond that point.

our entire offering!

**This sale will be broadcast live on the internet.**

**DVAuction**  
Broadcasting Real-Time Auctions  
Real time bidding & proxy bidding available.

# Welcome!

*Welcome to the 4th Annual Strategy Sale! We appreciate you taking the time to look through this year's offering. Like you, we make our living in the cattle business and we remain focused on a main goal: offer cattle that work, bulls managed to fit real environments, and cattle that bring value back to your operation year after year.*

*We've stayed committed to the same principles that have kept commercial cow calf producers profitable over time: balance, uniformity, and longevity. When cattle hold up, breed back, raise a good one, and stay in the herd, everything else tends to fall into place.*

- **Balance:** *It can be easy to talk about and hard to do. Cattle developed to excel in multiple traits at once, avoiding extremes that compromise function or profitability.*
- **Uniformity:** *A lineup that fits together not just as individuals, but as a system designed to create consistency in your calf crop and marketing outcomes.*
- **Longevity:** *Structural integrity, pressure on fertility, and genetic durability that reduce replacement pressure and lower cost of production over time.*

*Trevor and Tate continue to take on more responsibility here, and it's been exciting to see how they're shaping the direction of the program. Their energy and ideas have pushed us to keep improving and keep thinking ahead. Their influence is all over this set of bulls, and we think you'll notice.*

*We feel these cattle offer great options for a complimentary approach to any breeding program. We'd love to answer your questions, talk through the offering, or have you stop by anytime. We hope you find cattle in this year's sale that fit your program and contribute to your long term goals.*

*Thanks again for taking a look and thanks for the trust you put in our family and our cattle.*

**The Johnsons**

## THE SLEEPY HOLLOW THREE (3) SEASON BREEDING GUARANTEE!

We understand that your genetic investment is a big purchase. Cattle are sold as **guaranteed breeders** and will be confirmed by a Veterinarian exam. If an animal fails to be a sound breeder, upon receiving a vet certificate, it will be prorated with future sale credit as follows:

$$\text{PURCHASE PRICE} - \text{SALVAGE VALUE} \times \text{AGE FACTOR}$$

*(\$2,500 even in the case of death)* *(100% 1<sup>st</sup> season, 65% 2<sup>nd</sup> season, 30% 3<sup>rd</sup> season)*

\*Buyer retains the actual salvage value.

If available, any in-season agreed upon replacement bull will be valued at \$5,000.

## VOLUME DISCOUNTS!

We appreciate the opportunity to be your genetic supplier and offer volume discounts on purchases of 2 or more bulls. One additional percent discount will be applied with each bull purchased up to 10%.

Example:

2 Bulls Purchased ..... 2% discount

5 Bulls Purchased ..... 5% discount

10 Bulls Purchased ..... 10% discount

11 Bulls Purchased ..... 10% discount

## DELIVERY!

As a service to our customers we will keep the bulls at no charge until May 1st. Delivery will be arranged as best suits both parties in the month of May. Feed and yardage beyond the normal delivery period will be \$5/day.

Free delivery to any state bordering South Dakota, shared cost beyond that point.

## DEVELOPMENT!

We do our absolute best to manage these bulls to display their genetic potential, but also take a lot of pride in preparing them for the long haul. We work with several great consultants on herd health and nutrition, and after a complete health program and a late summer weaning, the bulls have been developed on a 50 mcal TMR ration since Nov 1.

We believe that bringing these bulls along on a longer growth curve leads to increased foot quality and fertility, thus more longevity in your program!

## DOCILITY!

**Docility** – we can write footnotes, take pictures, post videos but we would really like you to walk amongst these bulls on sale day. We know you don't have time for sires or calves with an attitude, so we cull accordingly.

Scan for sale videos!

# EPDs Explained

We have included the breed EPDs for easy evaluation. EPDs across breeds do differ so feel free to reach out to us if you have any questions about comparisons across breeds.

**CED (Calving Ease Direct)** – Difference in ease of calving for first-calf heifers; higher values indicate fewer assisted births.

**BW (Birth Weight)** – Genetic prediction of calf birth weight; lower values generally reduce calving difficulty.

**WW (Weaning Weight)** – Expected difference in calf weight at 205 days.

**YW (Yearling Weight)** – Expected difference in calf weight at 365 days.

**Milk (Milk/Maternal Milk)** – Genetic potential for milk production in daughters, expressed in calf weaning weight.

**Marb (Marbling)** – Genetic potential for intramuscular fat and quality grade.

**RE (Ribeye Area)** – Expected difference in ribeye muscle size.

## ANGUS INDEXES

**\$B (Dollar Beef)** – index estimating differences in post-weaning profitability, combining expected feedlot performance and carcass value. Insightful for producers looking to retain ownership through the finishing phase.

**\$C (Dollar Combined)** – Index estimating differences in overall profitability, combining maternal performance and post weaning value. Insightful for producers who intend on retaining replacement heifers and/or feeding cattle through the finishing phase.

## HEREFORD INDEXES

**BMI (Baldy maternal index)** – index estimating the differences in the maternal profitability of a bulls daughters. Insightful for a producer intending on retaining replacement heifers.

**CHB (Certified Hereford Beef)** - index estimating differences in post-weaning profitability, combining expected feedlot performance and carcass value. Insightful for producers looking to retain ownership through the finishing phase.

## SIMMENTAL INDEXES

**API (All Purpose Index)** - Index estimating differences in overall profitability, combining maternal performance and post weaning value. Insightful for producers who intend on retaining replacement heifers and/or feeding cattle through the finishing phase.

**TMI (Terminal Merit Index)** - index estimating differences in post-weaning profitability, combining expected feedlot performance and carcass value. Insightful for producers looking to retain ownership through the finishing phase.

## The Angus Bulls

Our Angus offering is built around the fundamentals that drive long-term profitability: sound feet, structural integrity, and cattle designed to last. Calving ease is bred in without sacrificing growth, giving you live calves that come easy but still have the performance to pay.

We place strong emphasis on disposition because cattle should be workable, productive, and safe. At a high level, these bulls are designed to sire practical, high-quality Angus females that make dependable mother cows while still producing feeder cattle with the genetics to excel in the feedlot and on the rail.

Seedstock Producer of the Year*

*Thank you to the South Dakota Hereford Association - our friends and neighbors - for this honor.*

*The Johnson Family*

## The Hereford Bulls

Our Hereford bulls are developed with the same commitment to structural correctness, functional longevity. These cattle reflect the traditional strengths of the Hereford breed — stout, durable, efficient, and built to remain productive for years.

Emphasis on disposition, fleshing ability, and maternal strength helps ensure daughters stay in the herd and consistently do their job. Most importantly, these bulls are designed to complement modern crossbreeding programs, adding hybrid vigor, efficiency, and real-world profitability from pasture to rail.

- Phenotypic standout all along from what will be a new donor here at Sleepy Hollow!  
- Suitable for heifers.

In August 2025 our family acquired the Blacktop Farms complete Hereford herd dispersal. Steve and Lori Repenning of Blacktop Farms have been long time friends and mentors to our family.

We have admired their commitment to building functional, maternal cows with genetics to produce terminally profitably cattle that can bring dollars back to a variety of operations. Steve and Lori's philosophy have served as guiding principles through the development of our own cow herd.

We strive to produce that same kind of cattle and are confident that the work Steve and Lori have done, pair tremendously with the direction Sleepy Hollow Farms is committed to.

The Repenning Family was honored by the South Dakota Hereford Association as Seedstock Breeder of the Year in 2023.

### The Simmental Bulls

*As some customers seek to maximize heterosis on Angus/Hereford offspring, our Simmental efforts continue to expand from experimental to trend here.*

*Keeping to our core principles while offering another high-growth opportunity for crossbreeding just seems like a logical fit.*

*Phenotypically we are selecting for the BWF individuals that are in high demand.*

### SIMMENTAL BREED AVERAGE EPDS
