**WELCOME TO OUR 51<sup>ST</sup> ANNUAL PRODUCTION SALE!**

Another year and another production sale ...this is our 51st sale. It is our pleasure to welcome you to the Ranch on April 20, 2019 to view the offering, have lunch and to visit with many top cattlemen and Hereford enthusiasts. For those of you that can't make the sale, please view our website or participate on DV Auctions online or make arrangements to be on the telephone.

Past support of customers is most appreciated and we want to make your purchasing opportunity as easy as possible. Our highlight each year is to welcome new cattle producers and the opportunity to assist in their evaluation and buying needs.

Environment always plays a big part in the cattle production business. The last three years have tested us. Two dry summers and this calf crop was born in the worst conditions possible ...cold and wet every day. Now comes the winter and spring of 2019 with extreme cold, wind and a good supply of snow.

So much for that miserable stuff. We have seven new sire groups and are anxious to have you appraise them. All bulls have done a good job with three of them showing outstanding production ...6128, 619D and 5436. And, you can't deny what Sensation has done for us and the cattle world. He just gets it done year after year with outstanding success.

You have to appreciate what Hereford cattle can do in extreme conditions ...cows bred up, stayed in condition, ate vegetation they normally don't eat and in the end weighed off a big calf. It is noteworthy to recognize the importance of the Hereford cow and Hereford-cross females in America's cowherd. Her disposition is the best, longevity is superb, adaptability for all areas and most important she is identifiable. There has never been a greater opportunity for Hereford genetics to have an influence in your herd and the cattle you produce.

Many cattle are sold on a first impression. We like to produce cattle that will present a good profile, be fault-free, pigmented, wide based, long down the spine, good muscle shape with strong performance numbers. We have moderated our birth weight and frame size and kept as much performance as possible and improved carcass numbers. We don't push the cattle the first month to give them a time to adjust to their new surroundings. The cattle will be grown out with their future usefulness in mind.

We have developed a cow herd of working females. We pay attention to the unmeasured traits of disposition, structure, solid markings, eye pigment, as disease free as possible and wide based. Emphasis on challenging the environment, fault-free udders, support the upper end of milk production, improve marbling and maintain good fertility. Calving ease is big requirement for our operation. All heifers have to calve as yearlings or they go to the feedlot.

We have retained ownership on our commercial cattle for over 50 years. Our conversion rate in that time has been consistently 20 per cent better than yard average. When feeding cattle, that is a big advantage and a place where Herefords excel.

It is our pleasure to invite you to the sale. Your interest and support are greatly appreciated. Let us know what we can do to make your selection process easier.

The cattle are for viewing anytime and our cowherd will be close by. We look forward to seeing you sale day or participating online, stop by for lunch and visit with other good cattlemen!

—The Stubers

Continues to be the country's calving ease bull...calves come 5 to 10 days early, have vigor in their nursing ability. His calves have wide and long loins, thick tops, good muscle shape to the quarter and top line, stand on good bone, nice hair coats and "eye appeal." Daughters may be his biggest asset. Good milk flow, level, small teats, good dispositions and calve early. He's truly the "Answer Bull" to many breeding decisions. Look at his EPD profile, he excels in many trait areas! Owned with Churchill, Upstream, Van Newkirk. Semen available from any owner.

Low birth weight sire with good muscle shape, strong top, pigment, wide loin with some good numbers. Stout, thick with good growth, super milk and balanced carcass numbers. 0130X was the top selling bull in Cooper's 2011 sale. Dam is one of Mark's most productive cows. Daughters look very productive with superb udder shape and great disposition. Certainly, gives an EPD profile that can be used in many programs. Works great on the Sensation, Navarro and Yankee daughters. Owned with Churchill, Cooper and Bowen. Semen available.

"Stockman" is a sire that we think you will like what he is breeding. A moderate framed bull that has come out of the pasture weighing around 2500 pounds. He is extremely long, has terrific muscle shape, stands on big bone, moves free with a long stride and presents a good profile. His offspring mirror his pattern and he is consistent in his production. You have to appreciate his fleshing ability, his "look" and breed character. His daughters have fantastic udder and teat shape. Owned with Ned & Jan Ward, Colyer Herefords, B&C Cattle. Semen available.

One of the very top bulls in Denver 2014. Huge hip with a deep quarter. Super long and thick down his top line. Good balance in his make up with rib. Short marked with eye pigment. Good milk. Strong performance, large scrotal, sheath up, good bone and a large REA. Certainly the "Rancher's Kind" with look, growth, milk, moderate BW and carcass. His offspring are consistent in their pattern and some daughters sure have the cow look with good udders. Owned with Baumgarten, Loehr. Semen available.

Massive, growth bull with high performance production, full pigment with a deep rib and flank. Presents a "cowmen's look" with his length and attractive profile. Has good size, strong back, large testicles, ideal markings, good hair coat and the easy going look. His genetic package is strong and his mother a good production record. Good calving ease out of heifers with all born unassisted. One of the breed's top WW and YW bulls. Ideal bull for smaller framed, thick, deep bodied cows. Heifers are calving and have plenty of milk. Owned with Knippling and Van Newkirk. Semen available.

Navarro and his offspring "cover all the bases" in the beef cattle business. Moderate frame, ideal markings, excellent production and carcass numbers. Offspring are the "rancher's kind" with eye appeal, great gaining ability, super muscle shape, milk and carcass potential. His sire group in consistent in their appearance, wide based, good pigment, super hair, very sound. Daughters are the keeping kind with small teats, good milk and producing outstanding calves raising some of the best on the ranch. Co-owned with Upstream. Semen available.

"Top End" is a massive, home-raised breeding bull that is one of Navarro's top sons. A growth bull with good thickness, muscle shape in the quarter and correct structure, he exhibits extra rib shape, stands wide, marked right with pigment, large testicles. Dam, maybe our best cow when you consider profile, production, ideal udder and longevity, produced the 2009 top selling SR Saga 1137 bull to Upstream and Loehr and now in ET program for Bill Breeding. This guy produces the "Rancher's Kind" when it comes to his offspring. Limited semen available.

 CL 1 DOMINETTE 273M

Maternal powerhouse backed up by many outstanding females. Terrific breeding bull that is consistent in the look of his offspring. They are thick down the back and loin with excellent muscle shape into his quarter. His calves all have a similar look. Body length, muscle, strong backs with their legs out on all four corners. Performance is outstanding with breed average birth weights, good production weights along with REA and MARB and plenty of milk. *Owned with Churchill, Cooper, Krebs & L Bar W. Limited semen.*

First calf crop confirms him as one of the great breeding bulls used on the Ranch. Offspring are deep sided, thick and wide with a soft-look rib cage. All of the offspring show good bone, extra muscle shape, correct made with a lot of eye appeal. Production numbers are almost ideal with low BW and powerful growth numbers. Carcass data is above average with plenty of milk. Many good breeders thought he was one of the better bulls in the Denver carload show in 2017. Used on heifers with great success. *Owned with Baumgarten. Semen available.*

# SR Yearling Sale Bulls

EPDs current: March 11, 2019

The 2019 sale offering presents seven new sire groups for your consideration. All the new sires have done a good job, but we are especially pleased with three of them, 6128, 619D and 5436, for the outstanding production they have shown. There's a fine group of Sensation progeny, too. He just gets the job done year after year!

It's been a trying winter with extreme cold, wind and a good snow supply. These conditions prevented us from taking most bull and heifer pictures in our usual pen setting. Instead, we were forced to take pictures in the corrals which did not allow the sale cattle to present themselves the best!

BW **81** / ADJ. 205 **761** ■ POLLED with scurs. Elite looking polled bull that stands wide behind, smooth shoulder, long sided with a full top. Wide at the loin and pins, even side depth and smooth underneath. Packing some good numbers with excellence in all areas. Dam as a first calf heifer had a 99 udder score. Super cows in the background.

## CONDENSED AMERICAN HEREFORD ASSN. EPD DEFINITIONS

### CALVING EASE – DIRECT (CE)

...indicates the influence of the sire on calving ease in females calving at two years of age.

### BIRTH WEIGHT (BW)

...an indicator trait for calving ease and is measured in pounds.

### WEANING WEIGHT (WW)

...an estimate of post-weaning growth that is measured in pounds.

### YEARLING WEIGHT (YW)

...an estimate of post-weaning growth that is measured in pounds.

### MATERNAL MILK (MM)

...milking ability of a sire's daughters is expressed in pounds of calf weaned.

### MATERNAL MILK & GROWTH (M&G)

...reflects what the sire is expected to transmit to his daughters for a combination of growth genetics through weaning and genetics for milking ability.

### MATERNAL CALVING EASE (MCE)

...predicts how easily a sire's daughters will calve at two years of age.

### MATURE COW WEIGHT (MCW)

...MCW EPD was designed to either increase or decrease mature size of cows in the herd.

### UDDER SUSPENSION (UDDR) ...represents an assessment of udder support.

### TEAT SIZE (TEAT)

...represents the assessment of teat length and circumference

### SCROTAL CIRCUMFERENCE (SC)

...best estimate of fertility for semen quantity and quality, and indicates early puberty in sons and daughters.

### SUSTAINED COW FERTILITY

...a prediction of a cow's ability to continue to calve from age three through age twelve, given she calved as a two-year-old.

### DRY MATTER INTAKE

...predicts the daily consumption of pounds of feed.

### CARCASS WEIGHT (CW)

...indicates pounds of hot carcass weight, if harvested at the same age constant endpoint.

### RIB FAT (FAT)

...reflects differences in adjusted 365-day, 12th-rib fat thickness. Negative FAT EPDs are expected to produce leaner progeny.

### RIBEYE AREA (REA)

...reflects differences in an adjusted 365-day ribeye area measurement based on carcass and ultrasound measurements.

### MARBLING (MARB)

...reflects differences in an adjusted 365-day marbling score (intramuscular fat, [IMF]) based on carcass and ultrasound measurements.

### BALDY MATERNAL INDEX (BMI\$)

...a maternally focused index that is based on a production system that is geared to identify Hereford bulls that will be profitable when used in a rotational cross with mature commercial Angus cows.

### BRAHMAN INFLUENCE INDEX (BII\$)

...a maternally focused index that is based on a production system that uses Brahman x Hereford cross cows.

### CERTIFIED HEREFORD BEEF INDEX (CHB\$)

...a terminal sire index that is built on a production system where Hereford bulls are mated to mature Angus cows and progeny will be targeted for Certified Hereford Beef to allow for optimum end-product merit. This index has no emphasis on fertility.

ALAINA STANGLE

# Stuber Registered Heifers

This offering of productive females is as good as we have ever offered. There EPD profile is similar to ones we keep with top-end heifers offered from each sire group. You'll find females that are easy to look at, have exceptional EPD's, extra milk, ample pigment and, in most cases, good carcass data. They are "Bangs" vaccinated and have had all of their preconditioning and pre-breeding shots. Heifers are in good condition and ready to breed to your bull of choice or if you A.I., **we will offer two straws of semen on any herd bull we own to use on the heifers. If you don't pick up semen at the ranch, you will pay shipping costs. Certificates will be based on cost or the price of certificates we have on our partnership bulls.** EPDs current: March 18, 2019

BW **81** / ADJ. 205 **766** ■ Ideal look and thick made with a wide quarter and bone. Thick end to end, trim front and perfectly marked. Should be an easy doing female. Number profile will compete with the best. *May want the right to flush at a later date or may look at keeping an interest.*

**THE IMPORTANCE OF THE HEREFORD COW**  
 ...disposition is the best, longevity is superb, adaptability for all areas, and most important, she is identifiable!

# Stuber Sale Heifers

Verle Jones has purchased bulls in many sales!

## Sale Day 2018

Mike Sabinash bought two top-end bulls!

Ken Huryta bought a good heifer!

Jake Baumgarten, heifer buyer!

# Stuber Sale Heifers

## Stuber Ranch Commercial Heifers...

The commercial heifers selling are all home raised from our commercial cowherd. Most of the black baldy heifers come from our first calf heifers. A fancy set of broody females with milk, muscle and enough growth, they have been wintered on a growing ration with their future use in mind and will be in just the right condition. They should weigh in the 825 to 900 lb. range. All are Bangs vaccinated and have had all of their preconditioning procedures. They will also have all of their breeding shots by sale day.

**NO DELIVERY is provided on the commercial heifers, but we will be happy to help you make arrangements.**

## TERMS AND CONDITIONS

**TERMS** — Terms of the sale are cash. Every animal will be sold to the highest bidder with the auctioneer settling disputes as to bids. Announced changes in catalog information sale day take precedence over printed material in this catalog. All cattle are the buyer's property as soon as sold and will be cared for a reasonable length of time at the buyer's risk. Neither Stuber Ranch nor any person connected with this sale assumes any liability, legal or otherwise.

**GUARANTEE** — Every animal in this sale is, to the best of our knowledge, free from any disease or defect. Any known defect will be called at sale time. All animals are guaranteed breeders. If an animal fails to breed after a trial of six months, it may be returned to the seller if in good condition and in compliance with North Dakota Health Regulations. The seller reserves the right to try said animal for six months, and if it proves a breeder, return it to the buyer at the buyer's expense. If the animal proves to be a non-breeder, either an animal of comparable rank will be substituted or credit given in a future sale on an animal for animal basis. We assume no liability, legal or otherwise, to make any further compensation to the buyer. No other warranty of any nature is expressed or implied.

**DELIVERY** — Delivery will be made in groups of five registered animals or on purchases of \$5000 or more to central points up to 300 miles. We will cooperate with buyers on delivery of all cattle regardless of number or distance. **NO DELIVERY provided on commercial cattle.**

**ABSENTEE BIDS** — Anyone wishing to bid who cannot attend the sale may place phone or mail bids by contacting Roger or Duane Stuber, or any listed sale representative. Sight-unseen purchases are at the buyer's approval upon receiving the animals.

**HEALTH** — Stuber herd health is excellent. North Dakota is Bovine Brucellosis-Free and accredited Bovine Tuberculosis-Free. Females are officially calfhood Bangs vaccinated. Individual health papers will be furnished for shipment anywhere. All cattle are on a complete preconditioning program.

**PERFORMANCE** — Cattle are on a complete performance evaluation program with records kept on about every thing that can be measured. We will provide any extra information you may need. We are recognized by the American Hereford Association as a **Gold Star Breeder.**

**ULTRASOUND** — Sale cattle will be ultrasounded and data provided on a supplement sheet and on our website. There is a strong correlation between ultrasound measurement of yearling breeding cattle and the actual carcass measurement of their progeny. We have years of ultrasound data and all sale cattle have carcass EPDs. If you desire, that information can be provided.

Catalog prepared by Lezlie Moore 605/683-4800.
