WELCOME TO OUR 54TH ANNUAL PRODUCTION SALE!

It is our pleasure to welcome you to our 54th annual sale. Your presence will be appreciated to view the offering, enjoy lunch and meet with other good cattlemen. If you cannot attend, please view our website or participate on DVAuction online or make arrangements to be on the telephone.

It has been a year of memorable events that have affected all of our lives and the ranching business.

We're offering offspring from seven new sire groups. Your appraisal will be appreciated. Because of the drought, the calves were weaned in August. Weaning weights were sure good under the circumstances. We did have a period of stress after weaning that caused the calves to go off feed for a bit. Since then, the true aspects of the Hereford Breed have come through with their compensatory gain. Will be a little greener at sale time, but sure in good breeding condition.

Many cattle are sold on a first impression. We like to produce cattle that will present a good profile, be fault-free, pigmented, wide based, long down the spine, good muscle shape with strong performance and carcass numbers. Just remember that the Hereford Breed excels in feed conversion, docility, longevity and reproduction. Our white face is "Identifiable" in all cross-breeding programs.

The markets are looking up, our product is in world-wide demand. Your genetics you provide today will provide exciting benefits ahead.

Past support of customers is most appreciated and we want to make your purchasing opportunity as easy as possible. Our highlight each year is to welcome new cattle producers and the opportunity to assist in their evaluation and buying needs. Let us know what we can do to make your selection process easier.

The cattle are available for viewing anytime as our cowherd is close by. We look forward to seeing you sale day or participating online, stop by for lunch and visit with other good cattlemen. —The Stubers

Immortal impact on our breeding program! His legacy will have influence for years through his sons and dgters. Sensation is the country's calving ease and cow sustainability bull ... they come 5 to 10 days early, have vigor in their nursing ability. His calves have wide and long loins, thick tops, good muscle shape and "eye appeal." They stand on good bone, nice hair coats, wide based with good muscle shape to their top line. Truly the "Answer Bull" to many breeding decisions. Daughters are maybe his biggest asset with good milk flow, level, small teats and good dispositions. Check his EPD profile, he excels in many traits! Co-owned with Churchill, Upstream, Van Newkirk. Limited semen available!

No longer with us, 0130X left a long-term impact with his productive females and sons. Low BW sire with good muscle shape, strong top, pigment, wide loin and good numbers. Stout, thick with good growth, super milk and balanced carcass numbers, 0130X was the top selling bull in Cooper's 2011 sale. Dam is one of Mark's most productive cows. Calves are small at birth with good growth and profile. His data in our herd is comparable to Sensation. Daughters look very productive with superb udder shape and great dispositions. Many sons are being used in purebred herds successfully. Gives an EPD profile that can be used in many programs. Owned with Churchill, Cooper and Bowen. Semen available.

His calf crops confirm him as one of the great breeding bulls used on our Ranch. A son, Lot 30 in 2019's sale purchased by Hoffman and Buck was Supreme Champion Hereford bull in Denver 2020. Offspring are deep sided, thick and wide with a soft-look rib cage. All of the offspring show good bone, extra muscle shape, correct made with a lot of eye appeal. Production numbers are almost ideal with low BW and powerful growth numbers. Carcass data is above average with plenty of milk. Used on heifers with great success. Daughters have calved with ideal udders, efficient with good mothering ability. Owned with Baumgarten. Semen available.

Massive bull that was competitive in the Show Ring. Free moving, clean front, long sided, full rib, wide back and exhibits ideal muscle pattern. Shows eye appeal with smooth shoulder, correct feet and leg structure, good markings, pigmented eyes and the ability to show presenc. Dam is a fantastic cow with a good udder, correct made, trim fronted, marked right and productive. His first calves have arrived and initial evaluation is very positive. So far on the ranch, calves come early with low BW and have eye appeal. Co-owned with Hoffman, Buck and Shaw. Limited semen, contact Hoffman.

High marbling, low birth weight with good growth and ample milk. Light colored, long sided, strong top, exhibits good side balance and presents a good profile. Moves free, good marked, light colored with large scrotal and teat score. Super calving ease EPD. First calves show good growth, eye appeal from heifers with no calving problem and are real easy to look at. Sons sold well in last year's sale. Co-owned with Cooper, Krebs, Churchill. Semen available.

His calf crops have truly established 697 as a breeding bull. His offspring have eye appeal, great numbers, calving ease and his daughters have good milk flow and udder structure. Fantastic set of BW, growth and milk numbers with outstanding carcass and calving ease. Used on heifers with ideal success. Moderate in his frame, correct made, ideal hair coat, google-eyed and presents a good first impression. His calf crop is outstanding with their numbers, eye appeal and structure. Most of his production comes from first calf heifers. *Semen available.*

This guy had to raise himself as his mother died shortly after birth. We call him "El Chapo" because he survived to weaning by stealing milk from other cows. Used entirely on heifers with good success. His dam was a great cow with good data. He is deep, thick and stout made. Several super sons sell. Note his carcass numbers.

Looking Forward...

CONDENSED AMERICAN HEREFORD ASSN. EPD DEFINITIONS

CALVING EASE – DIRECT (CE) ...indicates the influence of the sire on calving ease in females calving at two years of age.

BIRTH WEIGHT (BW) ...indicator trait for calving ease measured in pounds.

WEANING WEIGHT (WW) ...estimate of pre-weaning growth measured in lbs.

YEARLING WEIGHT (YW) ...estimate of post-weaning growth measured in lbs.

MATERNAL MILK (MM) ...milking ability of a sire's daughters is expressed in pounds of calf weaned.

MATERNAL MILK & GROWTH (M&G) ...reflects what the sire is expected to transmit to his daughters for a combination of growth genetics through weaning and genetics for milking ability.

MATERNAL CALVING EASE (MCE) ...predicts how easily a sire's daughters will calve at two years of age.

MATURE COW WEIGHT (MCW) ...MCW EPD was designed to either increase or decrease mature size of cows in the herd.

UDDER SUSPENSION (UDDR) ...represents an assessment of udder support.

TEAT SIZE (TEAT) ...the assessment of teat length and circumference

SCROTAL CIRCUMFERENCE (SC) ...best estimate of fertility for semen quantity and quality and indicates early puberty in sons and daughters.

SUSTAINED COW FERTILITY ...a prediction of a cow's ability to continue to calve from age three through age twelve, given she calved as a two-year-old.

DRY MATTER INTAKE ...predicts the daily consumption of pounds of feed.

CARCASS WEIGHT (CW) ...indicates pounds of hot carcass weight, if harvested at the same age constant endpoint.

RIB FAT (FAT) ...reflects differences in adjusted 365-day, 12th-rib fat thickness. Negative FAT EPDs are expected to produce leaner progeny.

RIBEYE AREA (REA) ...reflects differences in an adjusted 365-day ribeye area measurement based on carcass and ultrasound measurements.

MARBLING (MARB) ...reflects differences in an adjusted 365-day marbling score (intramuscular fat, [IMF]) based on carcass and ultrasound measurements.

BALDY MATERNAL INDEX (BMI\$) ...a maternally focused index that is based on a production system that is geared to identify Hereford bulls that will be profitable when used in a rotational cross with mature commercial Angus cows.

BRAHMAN INFLUENCE INDEX (BII\$) ...a maternally focused index that is based on a production system that uses Brahman x Hereford cross cows.

CERTIFIED HEREFORD BEEF INDEX (CHB\$) ...a terminal sire index that is built on a production system where Hereford bulls are mated to mature Angus cows and progeny will be targeted for Certified Hereford Beef to allow for optimum end-product merit. This index has no emphasis on fertility.

FULL DEFINITIONS POSTED INSIDE STUBER RANCH SALE BARN

TERMS AND CONDITIONS

TERMS — Terms of the sale are cash. Every animal will be sold to the highest bidder with the auctioneer settling disputes as to bids. Announced changes in catalog information sale day take precedence over printed material in this catalog. All cattle are the buyer's property as soon as sold and will be cared for a reasonable length of time at the buyer's risk. Neither Stuber Ranch nor any person connected with this sale assumes any liability, legal or otherwise.

GUARANTEE — Every animal in this sale is, to the best of our knowledge, free from any disease or defect. Any known defect will be called at sale time. All animals are guaranteed breeders. If an animal fails to breed after a trial of six months, it may be returned to the seller if in good condition and in compliance with North Dakota Health Regulations. The seller reserves the right to try said animal for six months, and if it proves a breeder, return it to the buyer at the buyer's expense. If the animal proves to be a non-breeder, either an animal of comparable rank will be substituted or credit given in a future sale on an animal for animal basis. We assume no liability, legal or otherwise, to make any further compensation to the buyer. No other warranty of any nature is expressed or implied.

DELIVERY — Delivery will be made in groups of five registered animals or on purchases of \$5000 or more to central points up to 300 miles. We will cooperate with buyers on delivery of all cattle regardless of number or distance. **NO DELIVERY provided on commercial cattle.**

ABSENTEE BIDS — Anyone wishing to bid who cannot attend the sale may place phone or mail bids by contacting Roger or Duane Stuber, or any listed sale representative. DVAuction is also a bidding option. Sight-unseen purchases are at the buyer's approval upon receiving the animals.

HEALTH — Stuber herd health is excellent. North Dakota is Bovine Brucellosis-Free and accredited Bovine Tuberculosis-Free. Females are officially calfhood Bangs vaccinated. Individual health papers will be furnished for shipment anywhere. All cattle are on a complete preconditioning program.

PERFORMANCE — Cattle are on a complete performance evaluation program with records kept on about every thing that can be measured. We will provide any extra information you may need. We are recognized by the American Hereford Association as a **Gold Star Breeder**.

ULTRASOUND — Sale cattle will be ultrasounded and data provided on a supplement sheet and on our website. There is a strong correlation between ultrasound measurement of yearling breeding cattle and the actual carcass measurement of their progeny. We have years of ultrasound data and all sale cattle have carcass EPDs. If you desire, that information can be provided.

Catalog prepared by Leslie Moore 605/683-4800.

BW 67 / ADJ. 205 708. Twin to Lot 83 and raised as a bucket calf with much success and weaned big. He did not get along with his buddies after weaning which set him back. He has the data set we like to see. Big, wide back with deep muscle shape into his quarter. Full rib and wide pin set. Very correct with body length. Good pigment, tight sheathed. CED 9.4. **Keeping a semen interest.**

Stuber Registered Heifers

This offering of productive females will be as strong as we have ever offered. Their EPD profile is similar to ones we keep. Top-end heifers will be offered from each sire group. You'll find females that are easy to look at, have exceptional EPDs, extra milk, ample pigment and, in most cases, good carcass data. They are "Bangs" vaccinated and have had all of their preconditioning and pre-breeding shots. Heifers are in good condition and ready to breed to your bull of choice or if you **A.I., we will offer two straws of semen on any herd bull we own or have partnership on to use on the heifers. If you don't pick up semen at the ranch, you will pay shipping costs. Certificates will be based on cost on the bulls we own alone or the price of certificates that we have on our**

Stuber Commercial Heifers

Selling:

90 COMMERCIAL HEREFORD HEIFERS 45 BWF FI HEIFERS

The commercial heifers selling are all home raised on the ranch from our commercial cow herd. Most of the black baldy heifers come from our first calf heifers. These are a fancy set of brood-making females with milk, muscle and enough growth. They have been wintered on a growing ration with their future use in mind and will be in just the right condition. They should weigh in the 825 to 900 lb. range. All are Bangs vaccinated and have had all of their preconditioning procedures. **They will also have all of their breeding shots given to them by sale day.**

NO DELIVERY IS PROVIDED ON THE COMMERCIAL CATTLE, but we'll be happy to work out arrangements with you.
