4th Annual
Sale

Sale Information

THREE HILLS RANCH & WEST RANCH

Dear Friends and Fellow Cattlemen,

We would like to take this opportunity to thank you for showing interest in our cattle and breeding program at our 4th annual bull and female sale. Our family strives to provide quality cattle that are structurally correct with breeding soundness to enhance any herd.

Over the years, we have tried to build a herd of Hereford cattle that will exceed any expectations. Structural correctness, perfect teat and udders, breeding soundness, and docile cattle that produce large calves is the type of herd we aim to create. Currently we run 450 cows, half are registered Herefords. Three Hills and the West Ranch Hereford bulls are utilized on our commercial Angus herd, those calves are retained until slaughter to monitor performance and carcass data. As a multi-generational family that works together tirelessly, we are very proud of the herd we have created thus far.

We look forward to building relationships with all of you that will continue throughout many years to come. We would like to thank you again for your interest and consideration. If you have any questions or we can be of any help during your decision-making process, please feel to reach out at any time. We hope to see everyone Thursday, December 19th at the Equity Cooperative Livestock Sales in Maquoketa, IA.

**Thank you,
The Morehead and West Family**

We can't say enough good things about 1143J. He is owned with Cooper Herefords where he posted their all time high weaning index of 131 and then came in with a 115 yearling index! He is sired by the great \$45,000 9108G herd sire and his mother is the great 9190G cow whose ET sons averaged \$40,000 in Cooper's last sale.

912 is a standout individual in phenotype and performance. His calves have recorded an amazing 113.2 on weaning index and 104.7 on yearling index. 912's dam is the 2022 Holden cow, one of their all time top cows. She is highly related to our 6212D herd sire. Tremendous maternal power in these herd sires.

Three Hills Ranch and the Morehead family are no strangers to the livestock industry. We've been involved in production livestock and breeding since the 1950's...and we're still going strong today.

It started back in the 1950's when David's grandfather, Ray, bred and raised the State Champion Chester White Boar. Now, we continue that tradition by raising award-winning bucking horses by select and line breeding, using some of the most sought after horses in the industry.

Our love for the Hereford breed started in the 90's through acquisition of the D.L. Stevens herd and continues today in large part to the opportunity to purchase a majority of the Jim Baker herd. We have acquired 50 years of Jim's Hereford genetics, along with his expertise, willingness to mentor, and love for the industry. Our herd has also continued to grow with the friendships and genetics of the Holden, Cooper, Johansen, and Van Newkirk lines.

David's son, Jake, and his sons, Sam and Cade continue to work together on the ranch building our brand. In addition, Dave's son-in-law, Luke and his family, has expanded the brand to their ranch in Northern Missouri.

Utilizing top of the line genetics and straight horned pedigrees, we work diligently to build on the best to develop above average traits. Structural correctness, along with good feet and udder quality are traits bred into our herd. We strive to produce the type of cattle that will have fertility, longevity, and economically sound premium traits sought after in the beef industry.
