

Bull Sale: **MONDAY FEB. 1, 2021**
AT THE WIX BARN & LODGE • RICHARDTON, N.D., 2 P.M. MT

Zane & Mary Jo, Mya and Josie

Hello Cattlemen and Cattlewomen,

As we settle into the new year, we reflect on the past one. There were challenges that we are all aware of and we are all feeling the ripple effect of those challenges. It has made it even more apparent how important the ranching and farming industry is to the people in this country. During times such as these it is even more important to have a program that works. At Wicks Cattle, we strive to have a variety of bulls to fit everyone's program, including:

- Black and red SimAngus™ yearling bulls,
- A handful of black Angus yearling bulls, and
- New to our offering is a group of 18-month-old black SimAngus™ and Angus bulls.

The bottom line in a successful program is profitability. You don't make money if you don't have a high rate of conception, if your calves don't get up at birth and suck, and if your calves don't weigh up at sale time. Every program needs bulls that have libido to cover a lot of females and is structurally sound, it needs calves to have hybrid vigor at birth, and the performance in their genes to pay at the scale. We at Wicks Cattle want your program to succeed. We realize the bottom line to your programs' success is to add performance and longevity to increase profitability to your program. We have both performance and longevity in our set of bulls.

Our performance starts in our cow herd. Our mother cows are a blend of Singletary, Six Shooter, and Western Cut just to name a few. Their numbers, disposition, degree of maternal instinct, and breeding soundness is why they are here. We cross them with sires that compliment them such as Bemer, Triple Crown and Eagle.

Longevity is as important to our program as it is to yours. We want your bulls to last you a long time providing you consistency and improving your bottom line. Structural soundness, including good feet and legs are a requirement to be in our line-up. This quality is passed on to your herd to ensure your bull lasts you a long time and his offspring do the same.

We are thankful for past customers and interest from new customers. We feel honored and privileged to be a member of the ranching community and to bring you this group of outstanding bulls. Please call us if you have any questions or stop by for a visit, our door is always open.

Zane, Mary Jo, Josie and Mya Wicks

Donner Ranch consistently tops the market with **WIX-sired** calves

Great customers of ours, the Donner Ranch, selling calves in Lemmon, S.D. **90+% OF THE BLACK BULLS THEY OWN WEAR THE WIX BRAND.**

They top the market every year going to the same buyer every year!

Ranchers,
We've been running Wicks Sim-Angus bulls for about eight years now and they have done us a lot of good. We run in big, rough & often times unforgiving country and these bulls come through with flying colors. The cattle industry has been a little rough these past 4-5 years and in our world you can't afford to pay good money for bulls and then have them come up no good in a years' time, these bulls don't.

Zane wasn't BS'ing you in his catalog last year when he said that the same guy buys our calves every year and they top the market, this year was no exception.

Thanks for the good bulls!

- Donner Ranch, Morristown, S.D.

Let us help you put a premium in ***your pocket***, too!

WAR CRY is a bull that we located at Kearns

Cattle Company near Rushville, Nebraska last spring. We went there in search of a purebred Simmental bull. Once we started going through the pens there was one bull, a half-blood, that persistently stood out among the rest. War Cry has a way of moving that is fluent and agile, he is extremely sound with great structure and a unique presence to him. He has great neck extension and is smooth shouldered. He is big topped, big ribbed and carries a massive hip. We could not pass him up. We have a lot of confidence in this bull as Kearns also did, using him extensively on both heifers and cows. We are expecting approximately 100 calves from him this year, we bred spring and fall groups to him. We are very excited about War Cry, expect to see great things from him in the future.
