CANOVA, SOUTH DAKOTA

2023 PRIVATE TREATY BULL SALE

Welcome to our 2023 Private Treaty offering and a sincere thank you for your interest in our program.

We have been selling Hereford Bulls by Private treaty for nearly 70 years from eastern South Dakota where our focus has always been on the commercial cattlemen. We are committed to the success of your operation and will help you find the bull that best fits your needs and program. We feel it's our job to continually improve our herd to meet your needs and give you the best genetics possible. We strive to make your operation more profitable. When that happens, we all win.

Our bulls are carefully selected with performance in mind and the ultimate goal is to help put more dollars in your pocket. They should get your cows bred, siring moderate birth weight calves with eye appeal that gain efficiently and finish well. The bulls are sound and developed with longevity in mind. They should be able to go out and do their job without falling apart. We put a lot of emphasis on the maternal side of his pedigree too, so they should leave you with highly maternal, durable females. Hereford and Hereford-crossed females are some of the most sought-after females in the cattle business. We will continue to work hard to give you genetics that can efficiently excel at growth, give you a valuable end-product and still leave you with a pasture full of exceptional females that will keep your operation profitable for years to come.

Our cow herd is based on a combination of Line One and Canadian genetics with disposition being of utmost importance. We have all slowed down a step and the grandkids are helping more and more, so there is no cow worth someone getting hurt. Good udders, fertility and sound cattle are must. They graze from late April until December and are expected to calve on time, be low maintenance and raise a good calf.

We use ET and AI in our program to help deliver some of the top Hereford genetics into your herds. The bulls are continually evaluated so we only offer the very best bulls for

sale that we would feel confident using in our own herd. There are several full and half-brothers out of proven genetics that should sire uniform, consistent calves. We kept more bulls back last year in hopes to have more 2 year olds available for our customers and we feel that we have a great set of them to offer along with some excellent yearlings. There's no guess-work with the 2 year olds. They are developed for longevity and what you see is what you get. The thickness, the length and overall performance are evident in this group.

Our bulls are for sale at any time, but generally sell from January to May on a first-come, first-serve basis. All bulls will be semen tested and ready to turn out and go to work for you. We feel these bulls are **high quality** and **affordably priced** offering you a good value for your dollar. Volume discounts are available.

As always, your satisfaction is of utmost importance. If you would happen to have any problems, be sure to let us know and we will do our very best to help in any way to make it right.

We'd love to have you come visit any time....

CED	BW	WW	YW	MM	M&G	REA	MARB	CHB
+4.3	2.6	65	98	31	63	+56	+01	107

Quonset-topped, big middled, soft made and easy doing 333A son. 7237 has a great look and pattern to him, is moderate BW and posted an impressive set of numbers sporting the 2nd highest ribeye in Holden's 2018 sale with a WR of 107. He ranks in the top 3% on scrotal, Milk, M&G and is out of a power cow now owned by Hoffman Herefords. He has left us some excellent females and sons are always at the top of the bunch.

HH Advance 0192X

REG NO: 43074020

CED	BW	WW	YW	MM	M&G	REA	MARB	CHB
1.6	5.4	63	101	32	64	+25	+02	103

ET Sire

Dug back in the tank to bring back one of our best. He sired extra thickness, depth of body and overall mass. Individually, he boasted a 111 WR and 108 YR and ranked in the top 1% of the breed for WW, YW, and M&G and ratioed a 120 IMF score. Dam, 7116, was a DOD at Holden's. A SOD, he left us some of our best cows, so we brought him back to sire powerhouse bulls and top end daughters.

CED	BW	WW	YW	MM	M&G	REA	MARB	CHB
+3.4	2.5	57	89	31	59	+26	+35	137

Purchased from Upstream's, this 215Z son was selected for his calving ease and highly maternal pedigree. His mother, 1353, is also the dam of the legendary UPS Domino 3027. He is a great combination of calving ease, good growth, high maternal traits and solid carcass numbers. He was used on heifers his first 2 seasons with great success.

ET Sire

Top seller in the 2012 Stuber Sale. Bakken is big hiped, wide based, deep sided, marked right with good markings, bone and is really gentle. He gained 4.5 pounds per day and has big milk and scrotal numbers. His Script momma is a good one. Top carcass and solid EPD profile. Offspring have explosive growth, good muscle shape, great performance and give you the look of productive cattle. His daughters are also very productive.

+6.4	2.5	67	105	41	74	+11	+12	137

AI Sire

Maybe the most well-rounded 215Z son ever raised at Coopers. Like his sire, 710 fits the demands of the beef industry combining proven calving ease, performance, maternal and carcass merit. He remains a trait leader in 11 categories and ranks in the top 30% of the breed or better in 14 traits and all 3 profit indexes. Daughters are performing well and have the udders to match the pedigree.

HEREFORD
ASSOCIATION
Hereford.org | 816-642-3757

Hereford bulls increase net profit by \$51 per cow per year.

That's \$20,000 in additional revenue for a typical 400-cow outfit, thanks to increased fertility and herd size.

Herefords are also the efficiency experts, proven to add value to calves in the feedyard — \$30 per head in profitability.

These 4 are like peas in a pod! Powerhouse mating with exceptional muscle, mass and capacity. All 4 have plenty of pigment, length, are deep-sided, thick topped and will sire calves that should really push the scale down. 0192x is an older sire that we brought back for his great performance which is evident in this group as well as his excellent natural thickness. He also left us with some outstanding daughters. Crossing him with a female like 5080, these guys will leave you the replacement females that everyone will be after.

An absolute load. Long, thick, deep and soggy made. Powerful bull with loads of capacity. He was a standout of his group. Goes back to one of our best cow families and has the highest M&G of the group. 459 has an average WR of 102 on her 7 calves. A full sister was the top heifer that Treston showed.

Natural calf out of donor cow 5080, whose first calf sold for 14,500 to Flying S, TX. She is an own daughter of HH Miss Advance 1056Y, the number 1 cow in the breed for teat and udder score. Add in the 5139 cow family from 1013 and 1111 being a maternal sibling to the HH Advance 0002 bull still used at Origen and ABS, there are some super cows behind this bull. Square made, deep quarter, easy fleshing calf that is full of muscle. Great performance with a 107 WR and 113 YR. 5080 has sons working for several top commercial herds in our area.
